

True Love

Today I feel I love you very much

And I'd say by far, that you're my biggest crush

Ah well that's the way this world is coming to

They think love is just a feeling, that stops at "I Love You"

But you see, love, Is a doing, not just a feeling

It shows in what you do, and you see, love, is a blessing

That sacred thing, don't just stop at "I love you"

Nowadays what they teach in schools

Is that you're the number one,

and they come out entitled fools

But what they never teach, that to love is to serve

And that money just don't matter

if you really have true love

But you see, love, Is a doing, not just a feeling

It shows in what you do, and you see, love, is a blessing

That sacred thing, don't just stop at "I love you"

Every day there's separations and divorce

Couples never stay together,

let their problems take their course

Oh don't you realise the danger, of throwin' love away

You just can't live without love, there is no other way

But you see, love, Is a doing, not just a feeling

It shows in what you do, and you see, love, is a blessing

That sacred thing, don't just stop at "I love you"
