

# The Junk Food Song

You've let me down, You went to town

And now your every thing, is getting' round

I told you once, a thousand times

To stay away, from burgers and fries

Don't go to McDonald's or eat junk at Hungry Jacks

You know I do not like it, when you get so fat

Now choose between your junk food or your handsome lovin' man

Or I'll never think about you and I will not take my hand

There are some folks, Who sit and smoke

And eat their junk food, the whole day through

But they ain't healthy, They don't look cool

Darlin' please don't tell me, you are one of them fools

Don't go to McDonald's or eat junk at Hungry Jacks

You know I do not like it, when you get so fat

Now choose between your junk food or your handsome lovin' man

Or I'll never think about you and I will not take my hand
